

## TURNING STRATEGIC PLANS INTO SUCCESSFUL RESULTS

***A breakthrough system and step-by-step map for planning and executing your big ideas and change initiatives***

**Fortune magazine estimates 75% of all strategies and projects fail. This is often due to ineffective methods for turning strategic intent into executable projects and results. Strategic Execution** is a practical hands-on program designed to help your organization achieve critical goals by applying proven, no-nonsense strategic management solutions to your most important issues and opportunities. Engaging and highly effective, this interactive workshop combines reality-tested techniques with a set of practical tools to boost the success of all types of projects, programs, and strategic initiatives.

**Developed for leaders, managers, team members, even cross-functional teams, this easy-to-use breakthrough system will show you how to think, plan, and act to achieve successful results at every level of the organization.** Proven to accelerate strategic execution and yield outstanding results, this process has been applied to initiatives of all types and sizes, including systems development, change implementation, process improvement, R&D, and other situations dealing with planning, motivation, knowledge, and change in large and small organizations.

**A LOGICAL FRAMEWORK TOOL IMPROVES YOUR PROJECT SUCCESS**

**Strategic Execution** presents a fresh approach to strategic issues while delivering proven tools to help you create effective plans and build committed teams.

Participants will be introduced to the **Logical Framework**, a simple yet powerful thinking tool that will help you to:

- Design practical action plans for any problem, idea, or opportunity.
- Align project objectives with organizational goals, vision, and strategic intent.
- Clearly communicate project strategy among stakeholders.
- Discover and eliminate potential pitfalls in advance.
- Get teams moving faster with clear plans that show who does what, when, and how.
- Improve working relationships and reduce conflict.
- Deliver on-target projects that increase performance, productivity, and profits.
