

ADVANCING ORGANIZATIONS | GROWING LEADERS

AUGUST 23, 2018

## Step-Up to Leading Others Gets Rave Reviews

We recently completed a [Step-Up to Leading Others](#) program in Central Oregon, and we couldn't be prouder of the exceptional work done by both facilitators and participants. **100% of the July participants gave our facilitator an "Excellent" rating, and 100% said they will recommend the program to others.**

Step-Up is designed to give new supervisors or frontline leaders the skills they need to improve performance while they keep their direct reports motivated and engaged.

Here's what our participants had to say about their personal Step-Up experiences:

- *"Amazing! – I feel empowered, educated and on fire to use these things. I hope everyone in the class does too!"*
- *"Eye opening, enlightening, exceptional."*
- *"I found the hands-on activities and exercises that pushed some of us out of our comfort zones were the most valuable part."*
- *"I honestly don't know if this program could be improved."*

We're pleased to read the great reviews we've received, but we're not really surprised. Our outstanding facilitation team focuses on exceptional content delivery with the goal of changing behavior. According to our participants, it works.

Our next Step-Up program starts on September 17. Don't miss this opportunity to give your frontline people better communication, management and accountability skills. And attendees earn 21 3/4 HRCI/SHRM credits. For more information or to register, call us at 503.206.8369.

## Are Your Leadership Development Plans Getting the Results You Need?

Our Leadership Pathway offers a range of targeted solutions to help you launch effective development programs tailored to your needs, your culture and your budget. Our proven, experiential programs will improve organizational outcomes, eliminate program development costs, and allow you to redeploy internal resources.

## Leadership Pathway

Our two-minute video outlines how our strategic development process delivers real behavioral change that can significantly improve your organization. Take a look and then give us a call. We look forward to talking with you.
